2008 PERSONAL INCOME TAX ORGANIZER

Our organizer is simple and is designed to help you gather information for your 2008 personal income tax returns. Use it as a quick checklist or complete it in detail. If you have a tried-and-true way of doing things, shred this and forget it. Please include the completed tax organizer in the package you mail to us or bring it with you to the tax interview. If you need more space feel free to attach separate sheets. You may also attach copies of original documents if you like.

[We suggest that you photocopy any original documents for your records before mailing originals to us.](#)

Some transactions occur infrequently. If you have unusual transactions or there are other items you think might be deductible, please bring them to our attention. Some of these items are listed below:

Installment Sales	Sale of an Entire Business	Like-Kind Exchanges (1031)
Multi-State Tax Filing	Losses From Fire or Theft	Foreign Income
Seller Financed Mortgages	Gambling Winnings & Losses	IRS Letters or Audits

APPOINTMENT SCHEDULING

Most of our clients, especially those who live in other states, use email, regular mail, the fax, or UPS (FedEx, etc) to send us the tax information we need. Opting out of the traditional sit-down meeting saves them time, hassle, and fees. Any questions or clarifications are typically handled by phone, fax, or email. However, if you'd like to schedule a tax meeting, by all means let us know so we can arrange a meeting at your convenience. If you have already scheduled a meeting with us it isn't necessary to contact us again.

INFORMATION WE MUST HAVE

ORIGINAL W-2 Forms of all kinds and from all jobs. **Please copy or scan originals before mailing to us.** If you want to attach your own W-2 forms to the returns you may send us copies and keep the originals.

Please provide photocopies or originals of the following (if you send originals please copy or scan them for your records before sending):

1. **1099 Forms** received by you for any purpose. This category is very broad and will include pension or retirement distributions or rollovers, interest income, dividend income, real property sales, gambling winnings, jury pay, unemployment compensation, state income tax refunds, certain disability payments, social security income, as well as other miscellaneous income.

Please Note: To simplify this organizer we have not provided space for you to list **interest and dividend** income separately. Please provide us with a photocopy or original of each 1099-Div or 1099-Int you received.

Please Note: If any interest or dividend income is paid to you for the benefit of someone else (children’s savings accounts, for example), please note that directly on the 1099 form.

2. **K-1 Forms** from partnerships, trusts, LLC’s, LLP’s, or S corporations received by you. This includes K-1 forms for investments, rental properties, TIC’s, as well as for self-employment.
3. **1098 Forms** reporting mortgage interest that was paid by you.
4. **Income Tax Returns.**

Please Note: If we **DID NOT prepare** your 2007 tax returns please include a copy of your 2007 state and federal income tax returns. If we prepared your 2007 returns we **DO NOT** need a copy. If you’ve previously provided a copy of your 2007 tax returns we do not need another copy.

5. **Miscellaneous Income.** Almost every conceivable kind of income is taxable. Most income is also reported to the federal and state governments. We need to see every tax information report you received. If you had some income that wasn’t reported to the government, we need to talk to you to determine the best way to handle it.
6. **Other Tax Payments.** If you paid income taxes for other years or to other states, please note below:

Payment Amount	Purpose	Tax Agency	Tax Year

7. **Estimated Income Tax Payments.** If you paid quarterly tax payments, please include dates, amounts, and the tax agency paid for 2008 estimated tax payments. You can include a completed copy of the estimated tax payment information we provided for 2008 or provide the information below:

DUE DATE	IRS PAYMENT	STATE PAYMENT	QUARTER	DATE PAID
2007 refund to be applied to 2008			—	—

06-15-08			2	
09-17-08			3	
01-15-08			4	

DEPENDENTS

Please list all dependents below. **If we prepared your 2007 returns we only need changes and info for new dependents. If the dependent is over 18 you may no longer qualify to claim her and you should make a note about any dependents over 18.**

To qualify, you must have provided more than 50% of the support. The custodial parent is deemed to have met the 50% test unless there is a written agreement that states otherwise. However, child support is considered support contributed by the person who paid the child support payments when allocating the actual net cost of providing support between the two parents. Children under age 19 & full time students under age 24 may be claimed by their parents. You may also claim your parents or other relatives as dependents if you contribute more than 50% of their support. The rules can be complex, please feel free to discuss this with us.

The credit is also available if you have certain other disabled dependents that must be cared for while you work. Note: Some care providers are 'exempt' and won't give you a Taxpayer ID #. However, they will tell you that they are 'exempt'.

CAPITAL GAINS & LOSSES

Stock sales, mutual fund sales, home sales, building sales, bond sales, etc.

If you sold a personal residence during 2008 you probably won't have to worry about capital gains tax and you do not have to re-invest the proceeds in a more expensive home. However, you should provide us with a copy of the closing escrow documents from the original purchase and the sale.

If you sold any other investments during 2008 you should have received a 1099 form reporting the 'gross proceeds' from the transaction. Gross proceeds are typically the amount you received from the sale but is not the amount you will be taxed on. With sale of real property gross proceeds are generally the selling price.

IMPORTANT: To properly report any capital gains sales on your tax return we have to know how much you paid for the investment (asset) and the date you bought it.

If the investment was purchased recently and was purchased through the same broker who sold the investment for you there is a good chance that the purchase information appears on the 1099.

If it does not you must look at your records or contact the broker you purchased the asset through to find out this information.

Please use separate sheets of paper to itemize the purchase dates and amounts paid for each investment sold. This can be a lengthy and time consuming process. Once completed, staple the information to the 1099 reporting gross proceeds.

WE MUST HAVE PURCHASE INFORMATION FOR ANY ASSET THAT YOU SOLD DURING 2008.

Total value of personal items donated to charity during 2008: \$ _____

Includes: clothing, furniture, or other property that was donated. Does not include donations of cash or by check.

MEDICAL AND DENTAL EXPENSES

Before you spend a lot of time with this, remember the following:

- Combined medical and dental expenses that you paid out-of-pocket must total 7.5% of your overall income (approximate).
- Medical and dental expenses do not include any amounts reimbursed to you or paid directly to providers by insurance companies.
- Medical and dental expenses include health insurance premiums paid by you (not company paid), prescription drugs, co-payments, deductible payments, mental health care, medical devices-glasses, hearing aids, crutches, wheelchairs, etc. If you paid with a credit card the expense is considered paid in full and is fully deductible.

Please tell us the total amount you paid out of pocket for health insurance premiums during 2008. \$ _____

STIMULUS PAYMENTS

The Stimulus Payment you may have received in 2008 is not considered taxable income and you do not have to report it on your 2008 income tax returns. However, the stimulus is not really a retroactive tax cut, it is an advance tax cut for 2008 and if you didn't receive the full amount, you have a second chance to qualify.

Please tell us the amount of your IRS Stimulus payment received during 2008: \$ _____

MAKE APRIL 15 JUST ANOTHER DAY

Lots of you have seen this logo at the website and have asked what it represents. Many have associated it with the flat tax movement, and in a sense that is one thing it represents. Like Congressman Ron Paul, we advocate a federal income tax with a flat rate of zero. The elimination of federal income tax is but a pipe dream, of course. More importantly, we see the logo as illustrating our mission, which is to reduce as much of the tax bite, sting, sweat, worry, stress, and bother of tax preparation as we possibly can. That way your April 15 can be *Just Another Day*.

“Your federal government needs your money so that it can perform vital services for you that you would not think up yourself in a million years.”—Dave Barry
